

# Today's Routine Technology, Tomorrow's Smart Polymer

25 July 2019 (Thurs)  
9.00 AM - 5.00 PM  
Edison Room @ TÜV SÜD PSB  
1 Science Park Drive  
Singapore 118221

Techniques and applications to be covered:

- Gel Permeation Chromatography
- Molecular spectroscopy
- Thermal Analytical

## SPEAKERS

**Mr Hiroshi Tomizawa**  
Global Product Manager - Bioscience division  
Tosoh Corporation (Japan)

Mr. Hiroshi Tomizawa has been working at Tosoh Corporation continuously for over 30 years dedicated to separation business including HPLC column products and GPC products.

**Mr William Lee**  
Technical Consultant | Nexus Analytics Pte Ltd

For more than 15 years, William was involved in the service and sales of a wide range of analytical instruments with distributor companies. William has been conducting training courses and seminars on thermal analysers, rheometers and thermophysical instruments to professionals in tertiary institutions, research institutes and industry, in South East Asia.

**Ms Ho Kok Chin**  
Senior Field Application Specialist | Nexus Analytics Pte Ltd

Ms. Ho graduated with a MSc. in Polymer Technology from Loughborough University, UK. She works as a field application specialist for 9 years and has extensive experience in the use of molecular spectroscopy instruments, chemical analysis systems and thermal analysers.
